

Community engagement projects

The majority of community engagement projects at Missionvale Campus are focused on upgrading Mathematics and Science education for both teachers and learners in the metro.

Each project is adapted to the needs of the various groups and may include short-learning programmes, workshops, peer-support programmes, formal lectures and the use of interactive audio-graphic content DVDs.

Four faculties are involved in the following projects, namely:

- ▶ Science, Mathematics, Information Technology in Schools project
- ▶ Ripple programme for grades 11 & 12
- ▶ Integrated Schools Management, General, Scientific and Mathematical Literacy Project
- ▶ NMMU STEM Pipeline Project (SANRAL)
- ▶ Mathematics & Science Incubators School for grades 11 & 12
- ▶ Mathematics Examination Preparation Workshop
- ▶ Problem Solving Skills Workshop for Educators
- ▶ Commerce Incubator School (COINS) project

Other community outreach projects are:

- ▶ The Law Clinic that functions as a Legal Aid Office offering legal services to the community
- ▶ The NMMU Business School assists would-be entrepreneurs and those already working within a small business environment with practical knowledge and skills to grow their enterprises
- ▶ The Community Psychology Clinic offers affordable psychological services such as psychometric assessment, counselling, crisis management and community outreach programmes.

Programme and Community Outreach

Geared for the future

Nelson Mandela Metropolitan University (NMMU) is a new generation university offering more than 300 programmes from certificate through to postgraduate research level.

Missionvale Campus is one of NMMU's six campuses, and is being developed as:

- ▶ A campus where Science, Technology, Education and Mathematics (STEM) is nurtured
- ▶ A multi-programme facility offering teaching and learning at both undergraduate and postgraduate levels
- ▶ A resource centre for the wider community, offering services, training, research and support

Location

This campus is easily accessible on the main thoroughfare between Port Elizabeth and Uitenhage – identified as a major growth area by Nelson Mandela Bay metro.

Facilities

Missionvale Campus has ideal facilities for both its students and the surrounding community with several large lecture halls, an award-winning “green” library, a new student centre, scientific laboratories, computer labs, a soccer field and the largest indoor venue in the Eastern Cape, the Yebo Gogo NMMU Indoor Centre with seating for 4000 people.

Special Centres

Missionvale Campus has three centres in different phases of development and implementation:

- ▶ **The Science Centre** is part of an initiative to intervene in the current crisis in Science, Technology, Education and Mathematics (STEM) in South Africa.
- ▶ **The Centre for Integrated Post-School Education and Training** focuses on expanding collaboration between NMMU and further education and training (FET) colleges and post-school educational / training providers.
- ▶ **The Centre for the Community School** is a national resource centre that aims to offer a credible, replicable and sustainable model for educational improvement in South Africa.

Academic programmes

The following programmes are offered at Missionvale Campus from 2013:

Faculty of Education

- ▶ Advanced Certificate (ML) FET: Mathematical Literacy
